

“Excellence in Quality & Service”

Kalamazoo Metal Finishers was founded on the belief that service is the key to success! We consistently provide our customers with high quality finishes, reliability and service. Our Management Team has decades of experience and will work to solve your coating issues. *Serving Michigan for over 30 years*

Technical Assistance:

Our Management Team has over 60 years of experience in the plating industry. We can help you determine what specification is needed to offer the best corrosion protection for your application. *When additional aesthetics are needed, we offer yellow, black finishes.*
